marcotrm.tech

Full-stack developer who builds and runs software that businesses depend on every day. I designed and develop SvaPro, the multi-tenant ERP and POS behind a chain of twenty-four retail stores, from the Laravel API and React screens to the bridges that drive fiscal printers and card terminals. I also build websites, e-commerce and AI automations for small businesses. Looking for a full-stack or frontend role in Valencia or remote.

EXPERIENCE

Full-stack developer — SvaPro ERP

2025 – present

QuiSvapo (retail chain, 24 stores, Italy)

- Top contributor by commits (1,954 of 5,681) in a team of three, across data model, API, UI, hardware integration and deploys.
- Multi-tenant Laravel 11 API on PostgreSQL (Sanctum, queues, scheduler) with a React/Vite back office and till; 346 automated test files.
- Integrated Epson fiscal printers (receipts, Z closure, voids) through a local printer bridge, a self-updating Electron till app and a Nexi card-terminal bridge.
- Built the excise-duty engine for e-liquids: rates valid from a date, 6-decimal precision and per-transfer snapshots for customs (ADM) reporting.
- Health checks, self-healing and Telegram alerts when a till or stock level looks wrong.

Developer — web, e-commerce & AI

2025 – present

Nia Marketing (agency)

- Websites and WooCommerce shops for local brands, including a four-step made-to-measure configurator for a tailor.
- Corporate site for an investment holding (Next.js, scroll animation).
- AI assistants and automations: agents on the Anthropic SDK, MCP servers, n8n workflows, voice (Fish Audio, Deepgram, Telnyx).
- Deploys on Railway and VPS (Docker, Coolify, Cloudflare tunnels).

SELECTED PROJECTS

- **Zinzi** — Till and stock management for a fashion retailer (React).
- **Fit & Recovery Studio** — Client and appointment dashboard for personal trainers (React, TypeScript).
- **QuiSvapo apps** — Customer loyalty and employee apps in React Native / Expo.

SKILLS

Frontend	React, Next.js (App Router), TypeScript, Tailwind CSS, Framer Motion, GSAP, Three.js
Backend	Laravel 11 (PHP 8.2), Node.js / Express, REST APIs, Prisma
Data	MySQL, PostgreSQL, Supabase, SQLite
Mobile	React Native, Expo, TestFlight
AI	Anthropic SDK, MCP, RAG, n8n, Ollama
Ops	Docker, Railway, VPS + Coolify, Cloudflare, Git

EDUCATION & LANGUAGES

Education	University studies — Programming, Physics — In progress
Languages	Italian (native) · English
